

Are you a CEO, an Employer, or a Manager?

Have you ever asked yourself these questions concerning your employees/staff?

What were they thinking? What were they NOT thinking? Why did they do that?

Joanie Winberg

Speaker, Trainer,
Certified Behavior Specialist

She can answer these questions, and more with her dynamic, fun and informative seminars, workshops, and keynote talks.

The Fastest Way to Grow Your Team: People Skills

Did you know

- People skills account for 80% of success in the workplace?
- At least 1/3 of all people suffer from a lack of "situation awareness?"
- Effective leadership, communication and relationship development depend on self-awareness?

Joanie Winberg will show you how to solve the many relationship "puzzles" in your organization, company or business.

Joanie is recognized for her expertise in team building and providing a frame work for your team to grow and work together and create an attitude for a cooperative environment.

With her guidance, tools, techniques, and illustrations, she will help increase productivity, performance and unity for your team.

Joanie uses a positive approach to offer insights in areas such as communication, decision-making, motivational tips, leadership skills and strategies on how to handle difficult relationships both personally and professionally.

"Joanie Winberg has conducted numerous People Skills Workshops for various groups at The Village Bank. As a result, we have found that the training has promoted inter-departmental communications, facilitated more effective feedback from managers to staff and to create development plans for their staff by identifying weakness and strengths. We have also used the People Skills workshops to kick-start supervisory training classes; whereby the students learn first off how to recognize the communication styles of others and how they can use that to their advantage when delegating and communicating with staff and colleagues."

Diane L. LeBlanc SPHR
The Village Bank
Vice President
Human Resources

"Thank you so much for conducting a People Skills Workshop for the members of our WIC team. I know they all came out of the training better prepared regarding how to interact with both our participants and their colleagues. So often we lose sight of just how differently people react in a situation and how important is our responsibility in recognizing that we need to respect these differences. It is crucial to our ability to be effective."

Your style of presenting is such that participants in the workshop learn important lessons while sharing in the fun of the moment."

Gail D. Pisacane
Interim WIC Director
